Tugas 5 Implementasi Ai untuk keuangan

Link github :https://github.com/Muhamadrozi59/Batch-5.git

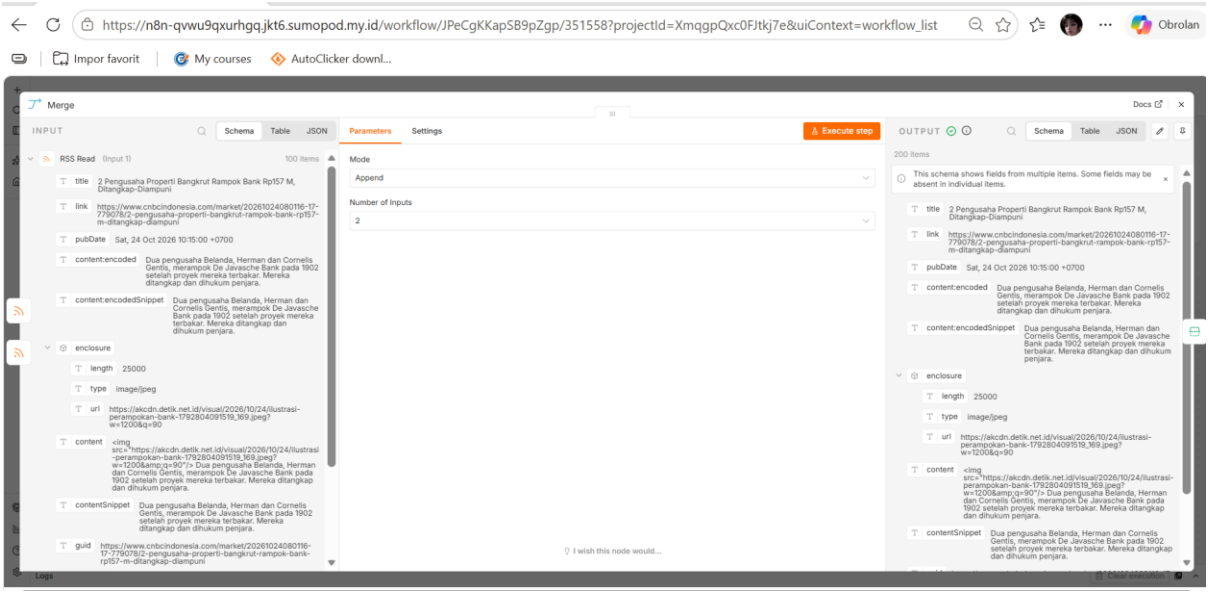

1. **Schedule Trigger**
    - **Fungsi:** Bertindak sebagai pemicu (*trigger*) otomatis yang menjalankan *workflow* secara berkala setiap pagi sesuai jadwal yang ditentukan.

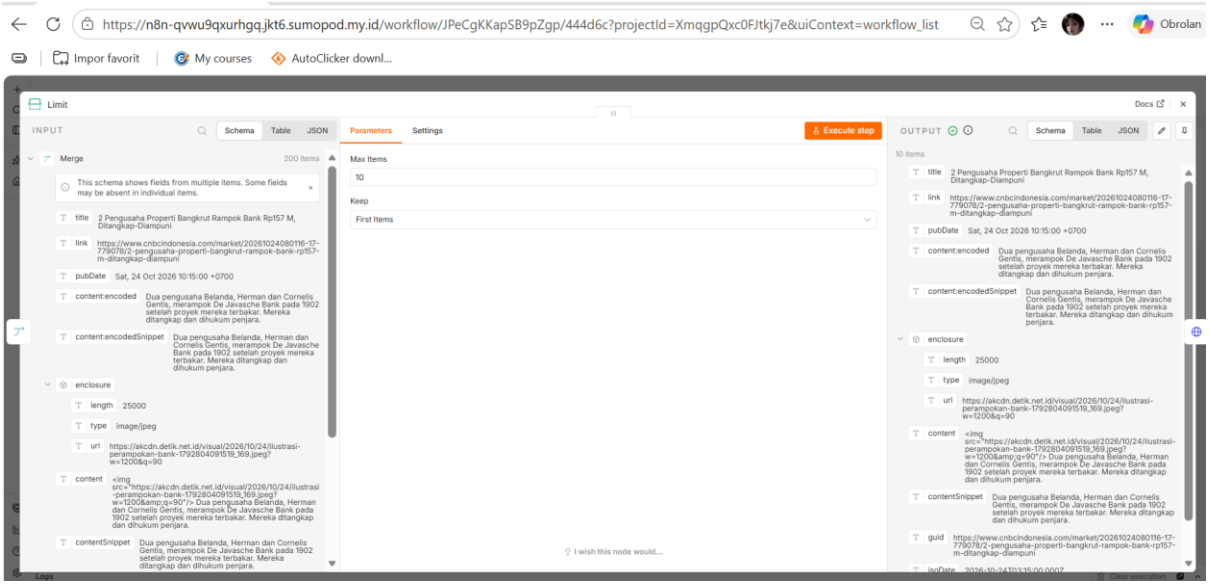

2. **RSS Read & RSS Read1**
    - **Fungsi:** Menarik dan membaca *feed* berita terbaru secara real-time dari URL RSS situs berita keuangan (seperti CNBC Indonesia / Detik Finance).

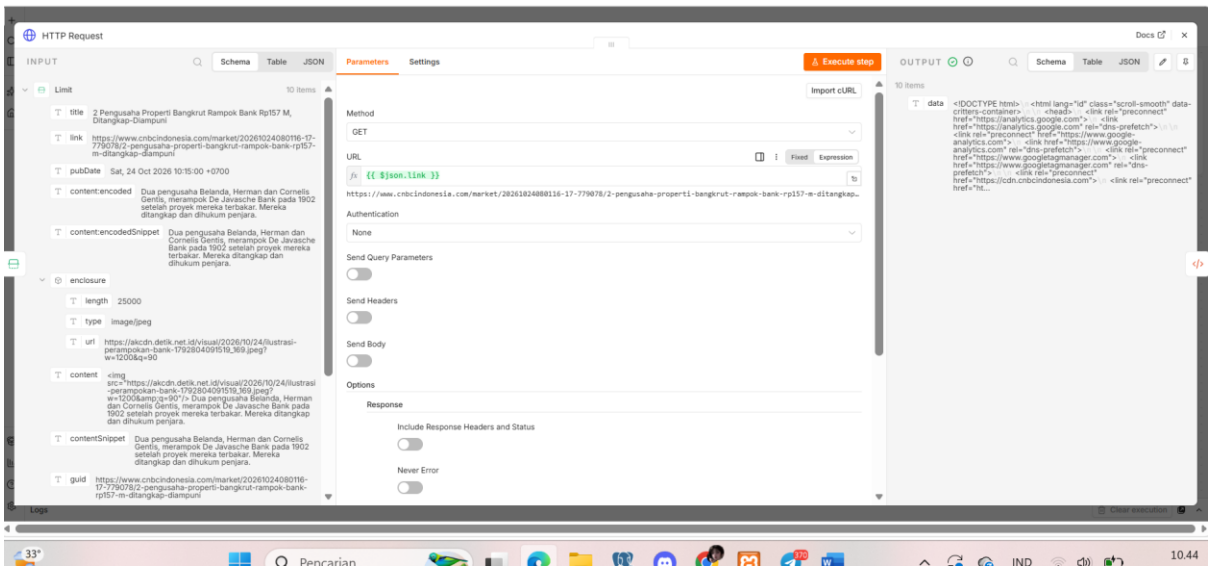

3. **Merge**
    - **Fungsi:** Menggabungkan (*append*) item/data berita hasil pembacaan dari kedua node RSS menjadi satu daftar aliran data tunggal.

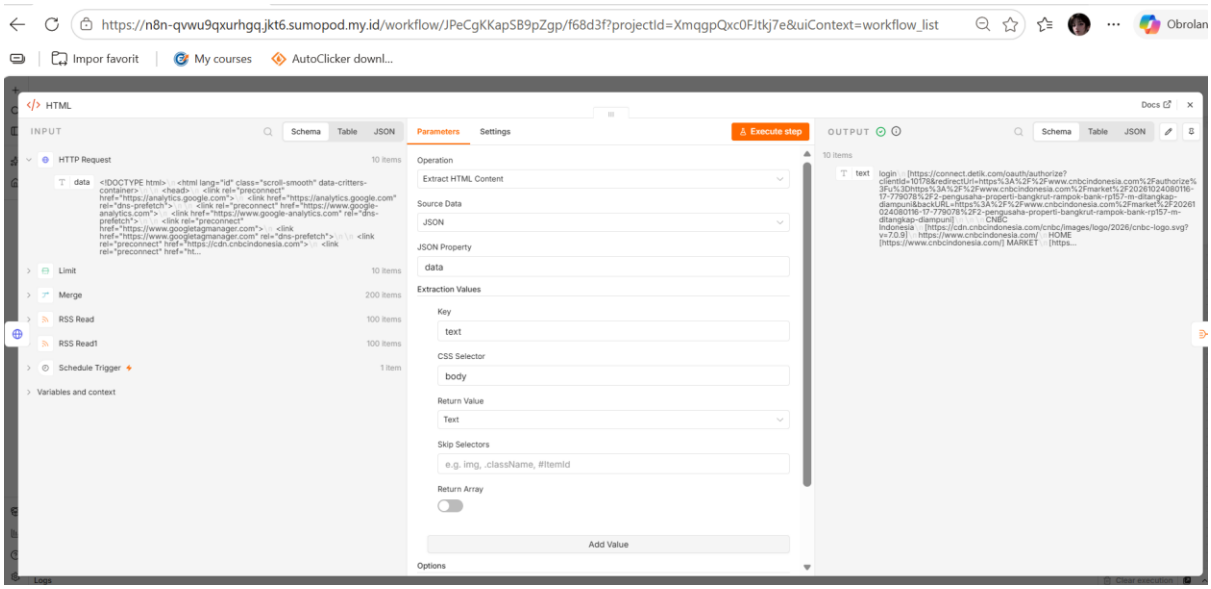

4. **Limit**
    - **Fungsi:** Membatasi jumlah artikel yang diproses dengan mengambil hanya **10 berita teratas** agar eksekusi lebih efisien dan tidak *overload*.

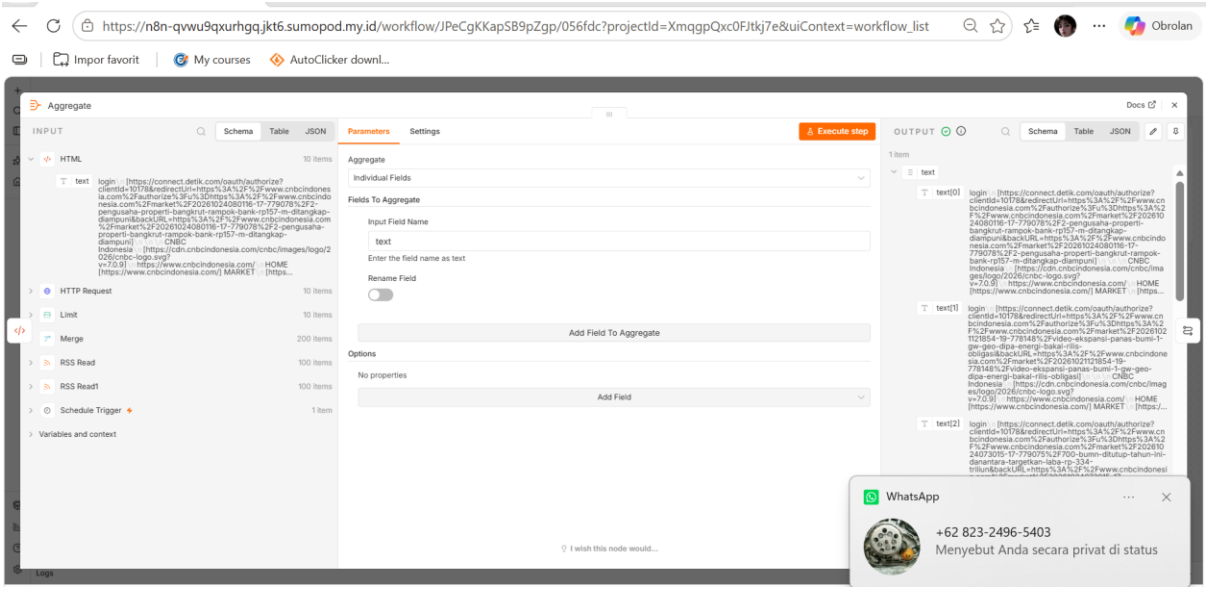

5. **HTTP Request**
    - **Fungsi:** Mengunduh/mengambil konten lengkap halaman web (HTML) secara langsung dari setiap URL artikel yang didapat dari langkah sebelumnya.

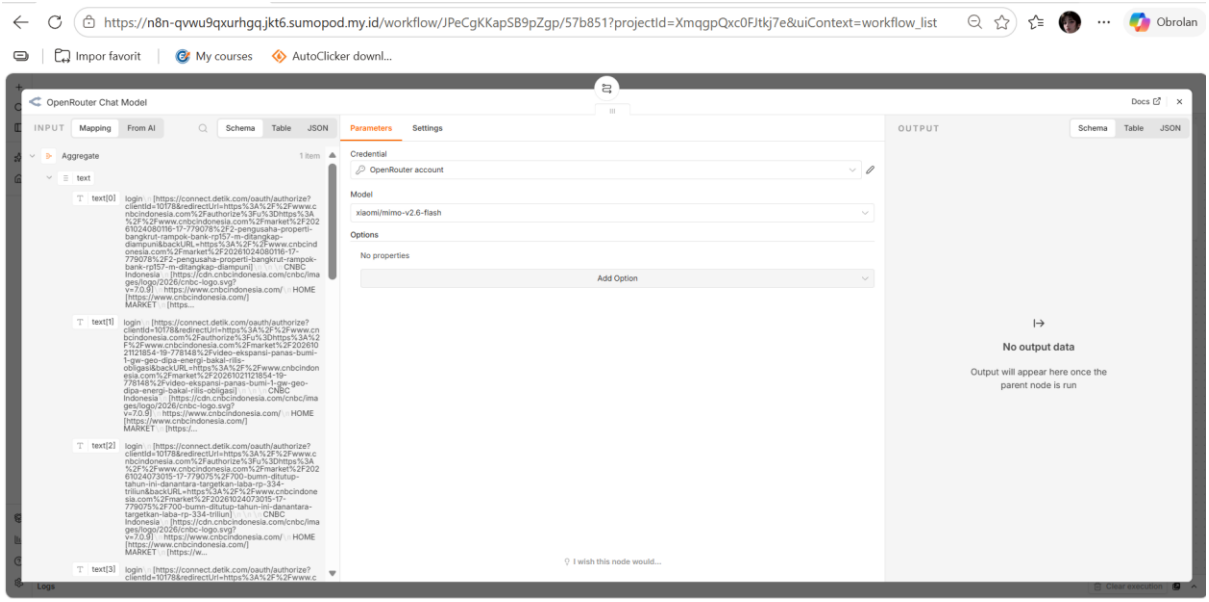

6. **HTML (extractHtmlContent)**
    - **Fungsi:** Menganalisis dan mengekstrak teks utama (*body content*) dari struktur HTML artikel serta membuang elemen web yang tidak diperlukan (seperti iklan, menu navigasi, dan footer).

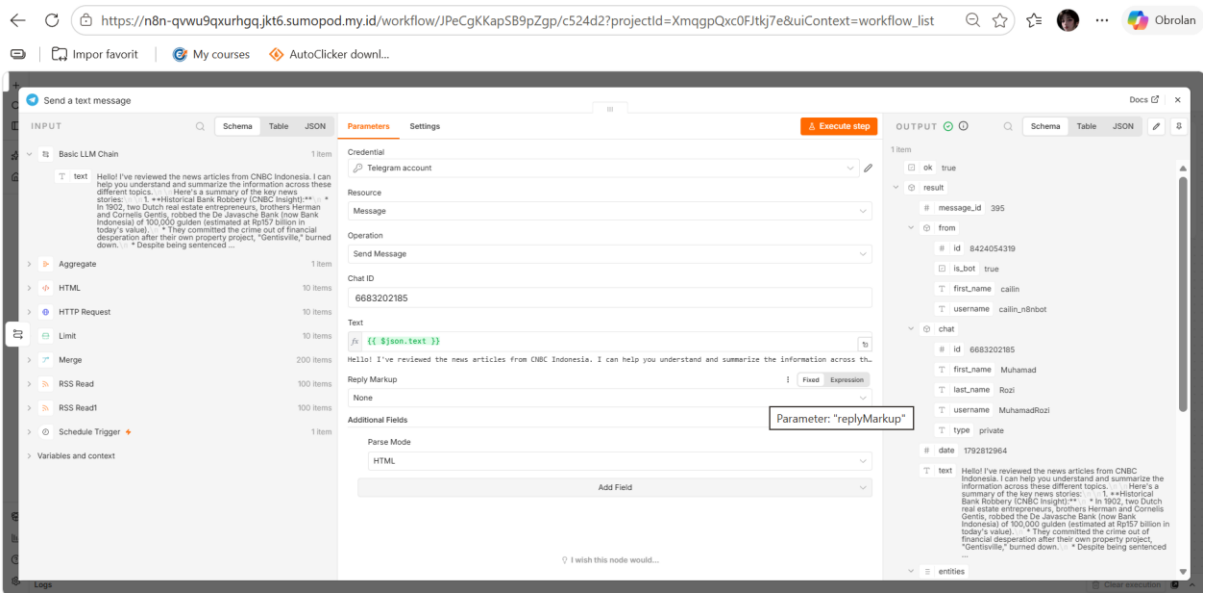

7. **Aggregate**
    - **Fungsi:** Menggabungkan teks dari 10 artikel terpisah tersebut menjadi **satu blok teks besar** (*single item*) untuk dijadikan konteks bagi model AI.

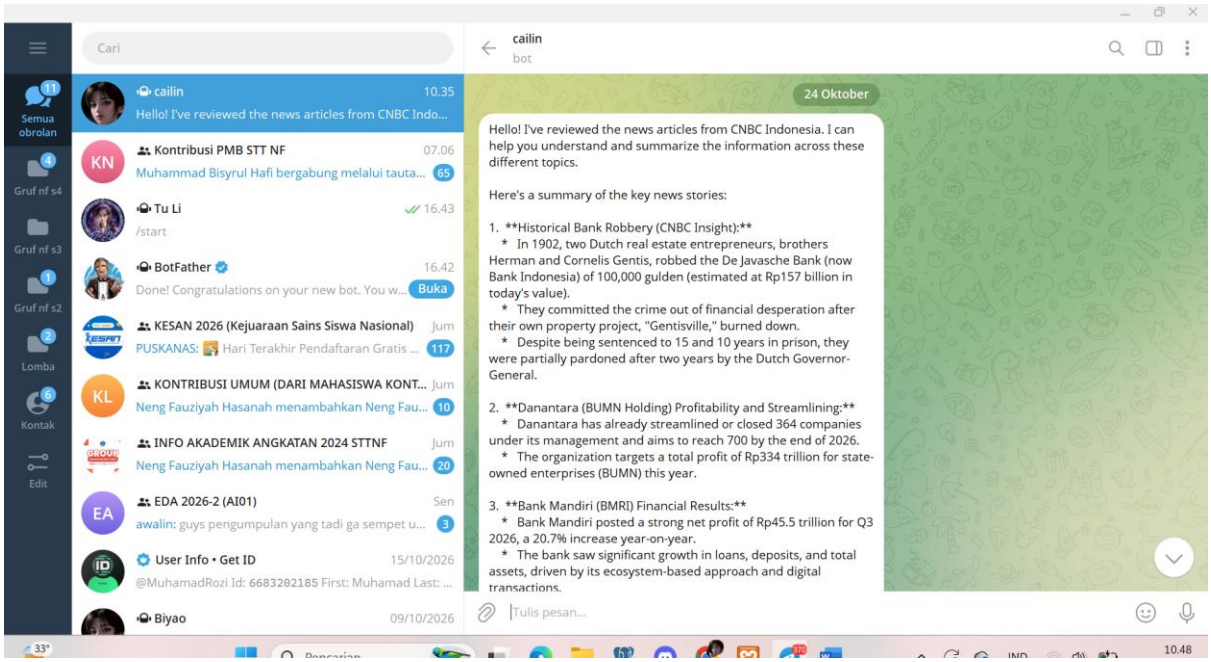

8. **Basic LLM Chain & OpenRouter Chat Model**
   - **Fungsi:**
     - **OpenRouter Chat Model:** Menyediakan koneksi ke model AI/LLM.
     - **Basic LLM Chain:** Memproses gabungan teks berita melalui instruksi (*prompt*) untuk menganalisis dan meringkasnya

9. **Send a text message (Telegram)**
   - **Fungsi:** Mengirimkan hasil ringkasan 5 poin dari AI secara otomatis dalam bentuk pesan teks ke saluran/grup Telegram tim investasi sebagai briefing pagi.

Send a text message

Hello! I've reviewed the news articles from CNBC Indonesia. I can help you understand and summarize the information across these different topics.
Here's a summary of the key news stories:
1. **Historical Bank Robbery (CNBC Insight):**
* In 1902, two Dutch real estate entrepreneurs, brothers Herman and Cornelis Gentis, robbed the De Javasche Bank (now Bank Indonesia) of 100,000 gulden (estimated at Rp157 billion in today's value).
* They committed the crime out of financial desperation after their own property project, "Gentisville," burned down.
* Despite being sentenced to 15 and 10 years in prison, they were partially pardoned after two years by the Dutch Governor-General.
2. **Danantara (BUMN Holding) Profitability and Streamlining:**
* Danantara has already streamlined or closed 364 companies under its management and aims to reach 700 by the end of 2026.
* The organization targets a total profit of Rp334 trillion for state-owned enterprises (BUMN) this year.
3. **Bank Mandiri (BMRI) Financial Results:**
* Bank Mandiri posted a strong net profit of Rp45.5 trillion for Q3 2026, a 20.7% increase year-on-year.
* The bank saw significant growth in loans, deposits, and total assets, driven by its ecosystem-based approach and digital transactions.
